Word from the Chairman

Dear client

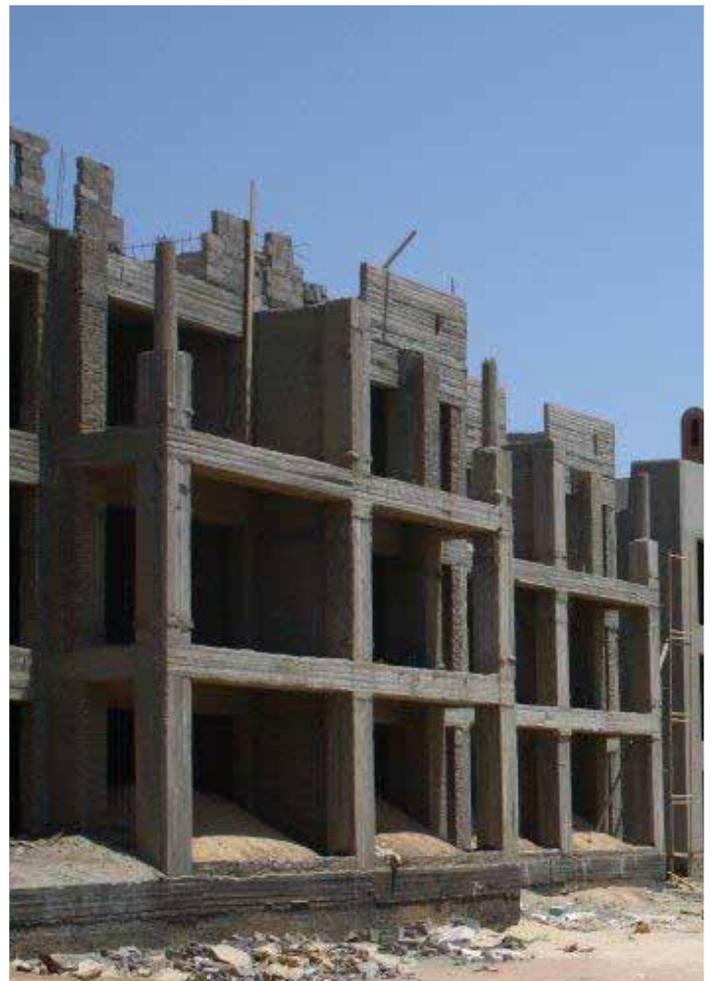

We are now 8 to 9 months away from the completion date of units due for delivery in stages A and B. The countdown has already started, and construction and finishing works are now gathering pace. In this special issue, you will see many site progress pictures that stand witness of the substantial progress achieved during this last quarter. Also, Infrastructure works are now well under way. All communal buildings have now commenced including the Club House which is now progressing at a faster rate. Electro mechanical works to lagoons and pools are also equally now progressing well. The end is in sight. I would like to take this opportunity to commend the efforts of our onsite staff during the last 3 months. Veranda remains committed to maintaining the highest standards possible.

Saleh Hamdy
Chairman

Construction Progress

As requested by several of our valued clients, who expressed their wish to see how we are getting on with the construction. We have taken some photos and you can see yourself, that not only the units but also the Club house, Spa and Lagoons are progressing very well.

Veranda is on schedule and the project to be released in five phases with phases A & B being due for release in 2011 along with the communal facilities.

Final Countdown

Countdown

It seems a long time since the first spade was dug back in 2008, but the time is almost upon us. only 300 days to start releasing phases A & B on schedual dates.

300 Days until you can !!!!!!!

Live Photo of Sahl Hasheesh Gate

300 Days until you can relax by the pools and lagoons

300 Days until you can enjoy and relax on the beach

Live Photo of the beach

300 Days until

you can wonder around old town Sahl Hasheesh
and maybe dine out at the restaurant or sip a
cold beer and watch the world go by.
